Established in 1838, **Milton**, in Rock County, was once a railroad hub in south-central Wisconsin. The gem of Milton is the Milton House Museum, a former Stagecoach Inn certified on the National Network to Freedom and a National Historic Landmark. Milton College enlivened the community from 1844 until 1982. Today, several of the college buildings have found new life as antique shops, offices, apartments, and the city library.
